Leading the Asurion Way

Course Introduction

"I see my role as a leader as identifying goals, understanding what motivates my people, and getting them the resources they need and the subsequent rewards after they achieve those goals."

Director, Supply Chain Managem

asurion

Sir Ernest Shackleton, who traveled to the South Pole in 1914 with 28 men on a wooden ship, knew the importance of identifying goals and understanding what motivated his crew. His voyage to Antarctica on the "Endurance" was the last in the Heroic Age of polar exploration, but his leadership example is timeless.

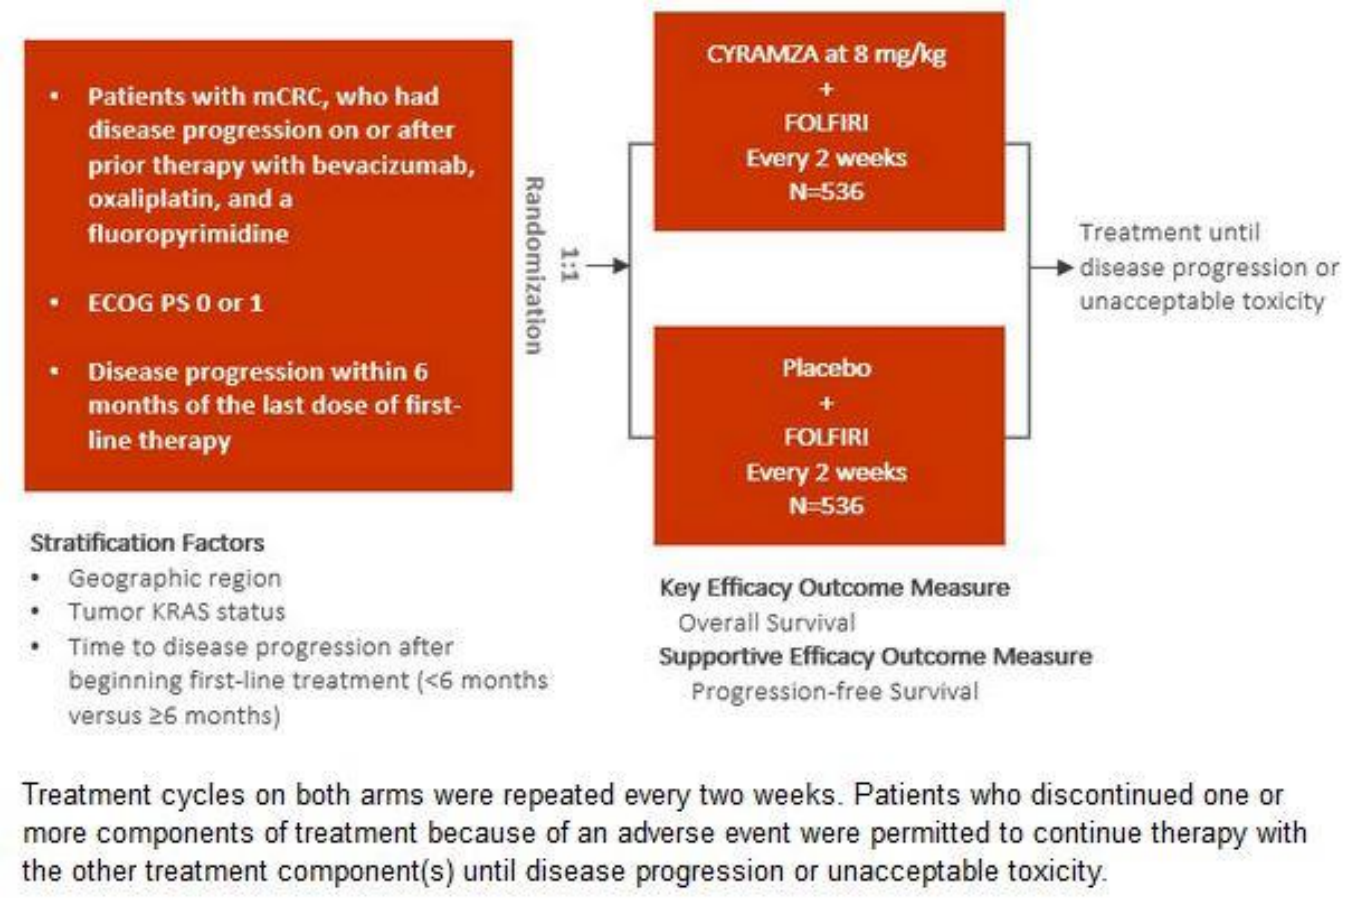
Shackleton faced constant uncertainty, dealt with rapidly changing conditions, and made many critical decisions. He had limited resources, an aggressive timetable, and ambitious expedition goals. But his greatest challenge as a leader was to motivate, engage, and inspire a talented team of many strong personalities to achieve a common goal.

The leadership challenges faced by Sir Ernest Shackleton bear a strong resemblance t
faced by every leader today at Asurion:

# INFOGRAPHIC

This example is a graphic for conveying drug treatment cycle information.

I have also created process flows and am able to translate information flows, such as from UAT, to create documentation.



# ANIMATED SCENARIOS

This example is a static example of an animated media scenario with an xml transcript display on the left.

I storyboard, script, and oversee the development of media graphics. I proof for errors and approve the final version before the media is sent to the client for review.

The Learning Gateway solution uses Microsoft Windows SharePoint Services as the base portal layer. A Windows operating system and Microsoft SharePoint Server are required for the basic framework.

However, institutions can add education-specific functionality from Microsoft Class Server, Microsoft Exchange Server, Microsoft SQL Server, Microsoft Office Live Communications Server, and Microsoft Office for a fully customized and scalable solution.

The Learning Gateway has several key benefits:

Low cost - Schools and education authorities can avoid a large upfront investment by signing up for this complete, managed solution.

# INSTRUCTOR GUIDES

This is an example of a 200 page instructor guide for a sales training course. I also created a PowerPoint companion along with other supporting materials such as participant guides.

## Balanced Business

### Instructor Preparation

| | |
|---|---|
| **Time** | 25 minutes |
| **Instructor Action Items** | • Show slide _____.<br>• Review the definition of balanced business.<br>• Review examples of business structures.<br>• Practice interpreting business structures and predicting their success.<br>• Introduce benchmarks for business structures based on research conducted at Amway Global Sales. |
| **Participant Guide Connection** | Page _____ |

### Content and Key Points

- **Inform the group** that "balanced business" refers to business activities and business structure.
- **Read aloud** the definitions of balanced business.
  - A balanced business is a Distributor business that has a healthy balance in three areas:

# PARTICIPANT GUIDES

This is an example of a participant guide for a four-day sales training course.

## Let's Practice: Business Structure Layouts

| | |
|---|---|
| **Time:** 20 minutes | **Grouping:** Class divides into 3 groups (This will be your knowledge group.) |
| **Resources:** 1 business report | **Materials:** 1 blank sheet of paper, pens/markers |

**Write the names of your Knowledge Group team members:**

Try visualizing the structure of a business by filling out a Structure Mapping Sheet. This will help you assess a business' income and stability.

| | |
|---|---|
| Distributor # | |
| Distributor Name | |
| Distributor Pin Level | |
| Width | |

| Leg # (Frontlines) | Name | Group Size of Leg | Depth of Leg | Pl |
|---|---|---|---|---|
| 1 | | | | |
| 2 | | | | |
| 3 | | | | |
| 4 | | | | |
| 5 | | | | |
| 6 | | | | |
| 7 | | | | |
| 8 | | | | |
| 9 | | | | |
| 10 | | | | |
| 11 | | | | |
| 12 | | | | |
| 13 | | | | |
| 14 | | | | |
| 15 | | | | |

**To Complete the Activity:**

1. Divide into three groups.
2. Use the report provided by the instructor to complete the Structure Mapping Sheet on the next page.
3. Present your results to the class and explain whether the business is heavy on width, heavy on depth or well balanced. Also explain what this means for income and stability.

# PRESCRIBING INFORMATION

I have formatted drug prescribing information, which contains product and usage information regulated by the FDA. The format adheres to federal guidelines rather than company standards.

I create these types of pharmaceutical documentation Word and HTML.

HLIGHTS OF PRESCRIBING INFORMATION

**se highlights do not include all the information needed to use MTA safely and effectively. See full prescribing information for MTA.**

**MTA (pemetrexed for injection), for intravenous Use**

**al U.S. Approval: 2004**

**RECENT MAJOR CHANGES**

age and Administration, Premedication Regimen and Concurrent lications (2.3) 10/2012

nings and Precautions, Requirement for Premedication and comitant Medication to Reduce Toxicity (5.1) 10/2012

nings and Precautions, Required Laboratory Monitoring (5.5) 10/2012

**INDICATIONS AND USAGE**

MTA® is a folate analog metabolic inhibitor indicated for:

Locally Advanced or Metastatic Nonsquamous Non-Small Cell Lung Cancer:

- Initial treatment in combination with cisplatin. (1.1)
- Maintenance treatment of patients whose disease has not progressed after four cycles of platinum-based first-line chemotherapy. (1.2)
- After prior chemotherapy as a single-agent. (1.3)

Mesothelioma: In combination with cisplatin. (1.4)

tations of Use:

ALIMTA is not indicated for the treatment of patients with squamous cell non-small cell lung cancer. (1.5)

**DOSAGE AND ADMINISTRATION**

Combination use in Non-Small Cell Lung Cancer and Mesothelioma: Recommended dose of ALIMTA is 500 mg/m$^2$ i.v. on Day 1 of each 21-day cycle in combination with cisplatin 75 mg/m$^2$ i.v. beginning 30 minutes after ALIMTA administration. (2.1)

Single-Agent use in Non-Small Cell Lung Cancer: Recommended dose of ALIMTA is 500 mg/m$^2$ i.v. on Day 1 of each 21-day cycle. (2.2)

Prior to initiating ALIMTA, initiate supplementation with oral folic acid and intramuscular vitamin $B_{12}$. Continue folic acid and vitamin $B_{12}$ supplementation throughout treatment. Administer corticosteroids the day before, the day of, and the day after ALIMTA administration. (2.3)

Dose Reductions: Dose reductions or discontinuation may be needed based on toxicities from the preceding cycle of therapy. (2.4)

**DOSAGE FORMS AND STRENGTHS**

- 100 mg vial for injection (3)
- 500 mg vial for injection (3)

**CONTRAINDICATIONS**

History of severe hypersensitivity reaction to pemetrexed. (4)

**WARNINGS AND PRECAUTIONS**

- Premedication regimen: Prior to treatment with ALIMTA, initiate supplementation with oral folic acid and intramuscular vitamin $B_{12}$ to reduce the severity of hematologic and gastrointestinal toxicity of ALIMTA. (5.1)
- Bone marrow suppression: Reduce doses for subsequent cycles based on hematologic and nonhematologic toxicities. (5.2)
- Renal function: Do not administer when CrCl <45 mL/min. (2.4, 5.3)
- NSAIDs with renal insufficiency: Use caution in patients with mild to moderate renal insufficiency (CrCl 45-79 mL/min). (5.4)
- Lab monitoring: Do not initiate a cycle unless ANC ≥1500 cells/mm$^3$, platelets ≥100,000 cells/mm$^3$, and CrCl ≥45 mL/min. (5.5)
- Pregnancy: Fetal harm can occur when administered to a pregnant woman. Women should be advised to use effective contraception measures to prevent pregnancy during treatment with ALIMTA. (5.6)

**ADVERSE REACTIONS**

The most common adverse reactions (incidence ≥20%) with single-agent use are fatigue, nausea, and anorexia. Additional common adverse reactions when used in combination with cisplatin include vomiting, neutropenia, leukopenia, anemia, stomatitis/pharyngitis, thrombocytopenia, and constipation. (6.1)

**To report SUSPECTED ADVERSE REACTIONS, contact Eli Lilly and Company at 1-800-LillyRx (1-800-545-5979) or FDA at 1-800-FDA-1088 or www.fda.gov/medwatch.**

**DRUG INTERACTIONS**

- NSAIDs: Use caution with NSAIDs. (7.1)
- Nephrotoxic drugs: Concomitant use of these drugs and/or substances which are tubularly secreted may result in delayed clearance. (7.2)

**See 17 for PATIENT COUNSELING INFORMATION and FDA-approved patient labeling.**

**Revised: 09/201**

L PRESCRIBING INFORMATION: CONTENTS*

**INDICATIONS AND USAGE**
1.1 Nonsquamous Non-Small Cell Lung Cancer – Combination with Cisplatin
1.2 Nonsquamous Non-Small Cell Lung Cancer – Maintenance
1.3 Nonsquamous Non-Small Cell Lung Cancer – After Prior Chemotherapy
1.4 Mesothelioma
1.5 Limitations of Use
**DOSAGE AND ADMINISTRATION**

**5 WARNINGS AND PRECAUTIONS**
5.1 Requirement for Premedication and Concomitant Medication to Reduce Toxicity
5.2 Bone Marrow Suppression
5.3 Decreased Renal Function
5.4 Use with Non-Steroidal Anti-Inflammatory Drugs (NSAIDs with Mild to Moderate Renal Insufficiency
5.5 Required Laboratory Monitoring
5.6 Pregnancy Category D
**6 ADVERSE REACTIONS**

# STEP ACTION TABLES

Step action tables with screenshots are very common in the banking industry for both print and wiki formats. Many documents, such as SDKs and APIs may be created as a table before conversion into other formats.

The Microsoft Manual of Style defines the style of the formatting, with some adjustments for company-specific changes.

| Step | Action |
|---|---|
| 2. | Click the **Requisitions** tab.   |
| 3. | You can review the status of all your requisitions here or click any of the links to view more information.   |

# PROCESS DOCUMENTATION

I can write process steps in my sleep. Most company Standard Operating Procedures are confidential, so this is one small example of the hundreds I have created using Word, Adobe FrameMaker, HTML, xml, and PowerPoint.

I have written more than 34 courses for Microsoft, from technical manuals for the XBOX software process to online sales training courses and more.

## RCCM Job Aid: Access Regulatory Conformance Change Manager (RCCM)

### Step 1: RCCM Log In

- Open **Internet Explorer**.
- In the browser address bar, type **RCCM** and press **ENTER**.
- Enter the **Login Name**.
- Enter the **Password**.
- In the **Repository** list, click **quality_prd**.
- Click **Login**.

# FLEXIBLITY

The graphics on the right are examples of a blog and snippets from a Chinese Medicine course.

I have been a technical writer for 15 years, writing and formatting a wide variety of documents according to specific company needs.

True Imagination inspires us to take action, share our ideas, explore options. True imagination allows us to see the un-seeable and opens us to discovering solutions to problems that seem beyond hope. It allows us to perceive the outlines of the Self we are becoming. It illuminates the path of our *Tao* or life path. Psychologist and alchemist C.G. Jung wrote that the imagination is "a concentrated extract of the life forces." In other words, it has power. It is inventive, creative, surprising, and it has an impact on material reality. If you can imagine it, it can happen! In fact, if you can't first conceive of it in your imagination, it's not likely to happen at all.

Before it sprouts, somewhere deep in the darkness, the seed imagines the sunlight. Imagination gives it the courage, daring, and direction it needs to grow. You, too, are a seed preparing to sprout, again and again throughout your life. Let your imagination be a guide. If you imagine that the world has a voice, it will speak to you. Spend time with one thing that you love - a tree, a river, a stone, a cat, your dog, or a black crow sitting alone on a branch ... listen for
you to beco

**Why Get a Massage?**

Every individual in the NGPT community works hard to achieve better health and fitness. The considerate trainers also have your best interests at heart, and with every session, they make sure you feel that love in every muscle fiber of your being. Day after day, week after week, you go back for more.

e, the exercise
body demands
then and
are just part of
ng and
ghtening.

In Chinese medicine, the spirit of the Earth element is called the *yi*. *Yi* represents the psychological faculty of intention, our ability to stay with something over time undeterred by like or dislike, obstacle or challenge. When our *yi* is strong, we can make a soup of dry autumn mushrooms that sings with the green rain of spring. Like the Earth, we create a feast for all living beings from what we have in the house.

This week, find one person, situation, or experience in your life that you would like to throw away. Instead, embrace it as your most precious treasure. Consider how this difficult problem could become a key ingredient in the soup of your life. What is the opportunity for growth? What subtle flavor are you missing? How could a shift in your viewpoint, a change in attitude, open you to a bountiful larder where previously you saw only empty cupboards?

Remember that it is only through hard, patient work, day after day, that great feasts are cooked and miracles made possible.
